THE BARNETT FOUNDATION

Important Update on our Coburg project

541 Sydney Rd Coburg is progressing as we continue discussions with reputable builders keen to undertake the construction. This process has unfortunately taken longer than expected which has meant that our commencement date will now be in the new year.

The Barnett Foundation believes that this is advantageous for our applicants as I am sure you are aware of the uncertainty in the current economic environment. Given the rising interest rates and building costs, this change will give all potential purchasers the time and space to fully assess the opportunity, wait for interest rates to settle and assess whether they have the ability to purchase an apartment in this exciting project.

Don't hesitate to contact us if you have any questions regarding this update.
